

# Electronic Disc Cutter - EDC

## Working principle

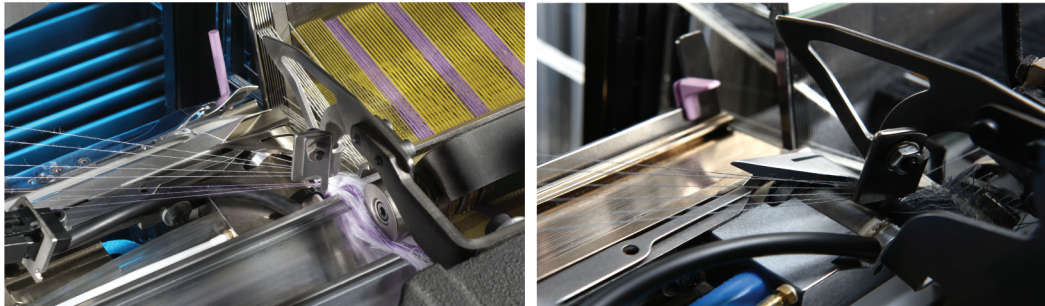

The Electronic Disc Cutter is a motor-driven circular cutter blade, that cuts the yarn when it passes the cutter blade. The simplicity of the EDC design allows easy width changes, and needs no tuning.

## Advantages

- It is very simple to change widths
- The cutting time is always correct
- The EDC cuts every filling yarn always at the right moment, while clamping the filling

## Application

Standard for all filling yarns, except in case of mixing or using extreme yarn counts or in case of specific technical applications.

### AVAILABLE ON RAPIER:

- OptiMax
- OptiMax-i
- TerryMax-i
- OptiMax-i Connect
- TerryMax-i Connect

Picanol Original Quality Parts offers a wide range of products and solutions to increase the flexibility, performance and profitability of your installed weaving machines. We provide state-of-the-art technology adapted for your weaving machines, helping you to realize maximum weaving results and value of the machine investment.
